# Alliance for Toll Interoperability

## *Our Mission*

*The mission of the Alliance for Toll Interoperability is to promote and implement interoperability between toll operators for the benefit of customers and agencies.*

The goals and objectives of the ATI are to define and implement interoperability strategies that can be enacted now using current technologies and the operational procedures and policies of its members. More specifically, the goals and objectives include:

- Establish inter-agency and interstate customer video tolling interoperability
- Pursue Motor Vehicle Department plate and owner information exchange
- Determine state legislation needs for toll agencies and Motor Vehicle Department information sharing
- Investigate RFID toll interoperability
- Consider future technologies in the context of tolling interoperability – application of which would be within each agency's operating rules
- Promote cost effectiveness & efficiencies/controls

## *Current Participating Agencies*

HARRIS COUNTY TOLL ROAD AUTHORITY

February 7, 2008
